Healthcare Planning: Take the 1st Step WEBINAR

A Complimentary Webinar on How to Help Your Hospital/Health System's Employees With Advance Care Planning

Wednesday, May 17, 2017
11 a.m. - 12:30 p.m.

[Click here to register](#)

As part of National Healthcare Decisions Month and our ongoing work in serious illness care, the Massachusetts Health & Hospital Association is hosting a webinar for hospitals and health systems on how to provide resources to help employees to plan ahead in the case of serious illness. The webinar is entitled: Healthcare Planning: Take the 1st Step. We've put together a panel of health system leaders who will share how they have worked within their own organizations to help provide information and resources for their employees through initiatives or campaigns to educate their employees. Since healthcare organizations are often the largest employers in their communities, advanced care planning is an important issue to bring to the forefront. We hope you will join us for this informative and complimentary webinar! **CLICK HERE** to submit your registration.

Our speakers:

Moderator:

Patricia M. Noga, Ph.D., R.N., Vice President, Clinical Affairs, Massachusetts Health & Hospital Association

Panelists:

Elizabeth J. Collins, M.D.
Medical Director, Palliative Care Service, Lahey Hospital & Medical Center

Tammy B. Retalic, MS, R.N.
CNO & V.P., Patient Care Services, Hebrew Senior Life

Tina Santos, MBA, MSN, R.N.
CNO & V.P., Operations, Heywood Healthcare
